

Eric Householder's Platform:

I believe West Virginia is ready for a new generation of leadership – one that will bring forth a new voice, and innovative ideas.

My name is Eric Householder, and I am running for the House of Delegates in the 56th District. I would appreciate your support. With close to 20 years of experience in business, I believe we need to bring the knowledge and tools from the business world to get us on a positive track and fundamentally fix the economy and business climate in this state and in our government.

Our State spending is out of control!

This is why I am running for the House of Delegates. Our hard earned tax dollars are being spent faster than you can believe.

I know that the economy is not doing well and it is putting a financial strain on all of us, but how long can we continue to remain silent and let our State Government spend money we do not have? Stop the wasteful spending! That's what I want!

It appears that state spending is presented as a “solution” for all of our economic problems. We are often led to believe that all our government has to do is spend more money and everything will be fine.

We'll my message is simple: I won't be part of that mentality that just keeps spending without worrying how the bills are going to be paid.

I am ready to return to a government of the people, by the people and for the people. I am very excited and I am ready for public service. I want to be **your** next Delegate. If you are interested in volunteering in my campaign, or if you want to make a contribution, you can visit my campaign site at www.erichouseholder.com. I ask that you support me, and vote for me on Nov 2nd. Thank you.
